

3.5.10

$$9x + 11y + 5z + d = 0 \quad \text{per } M(1, 2, -3)$$

$$9 \cdot 1 + 11 \cdot 2 + 5 \cdot (-3) + d = 0$$

$$d = -16$$

$$\pi: 9x + 11y + 5z - 16 = 0$$
