

a)

$$\Rightarrow c = 0 + 3 \cdot 1,28 \approx 3,84$$

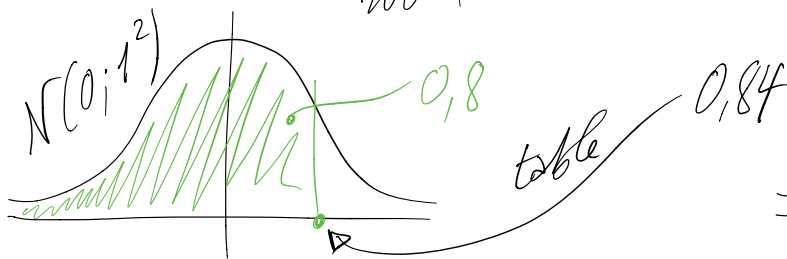

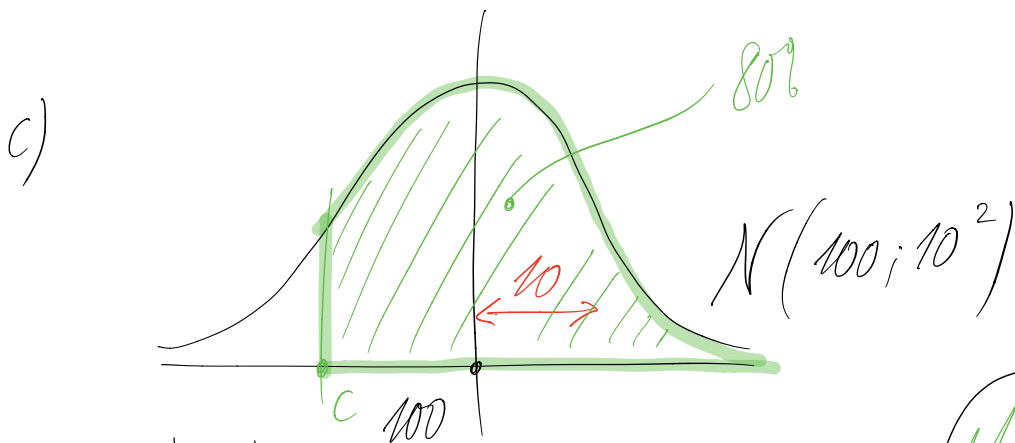

b)

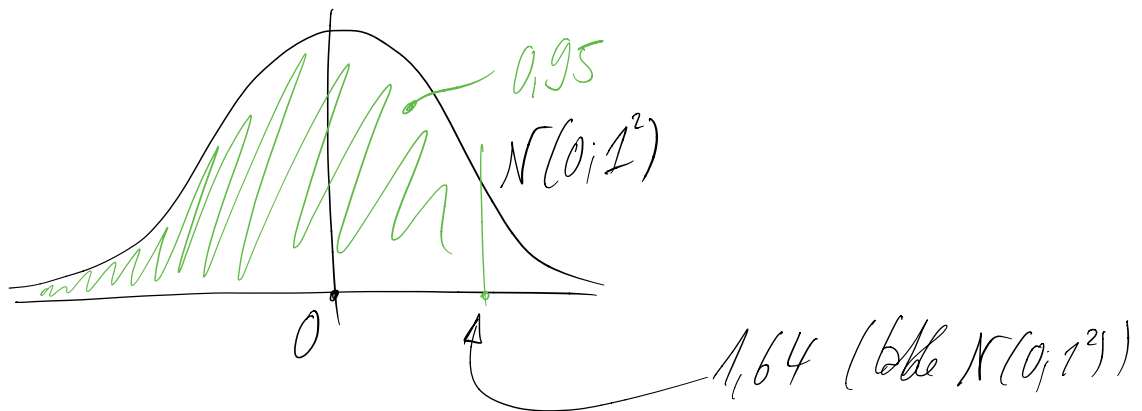

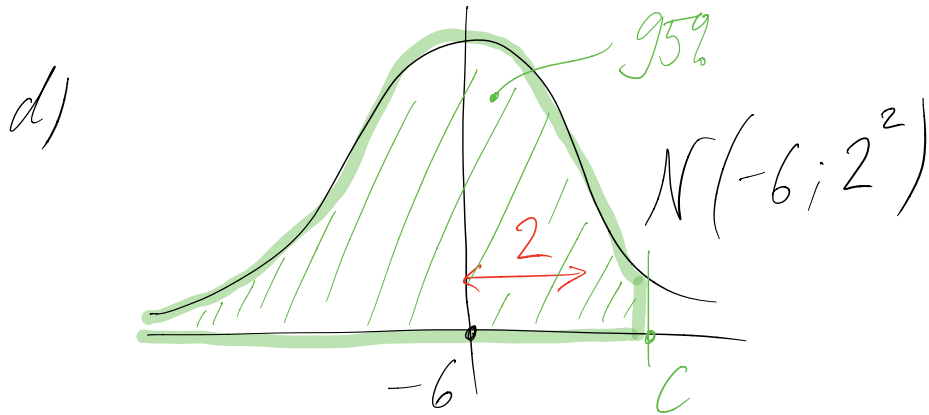

$$\Rightarrow C = 5 - 0.52$$

$$= 4.48$$

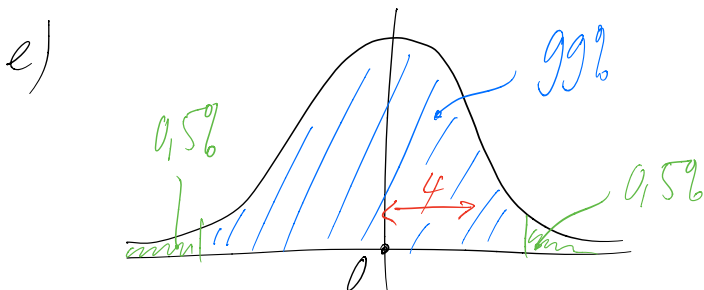

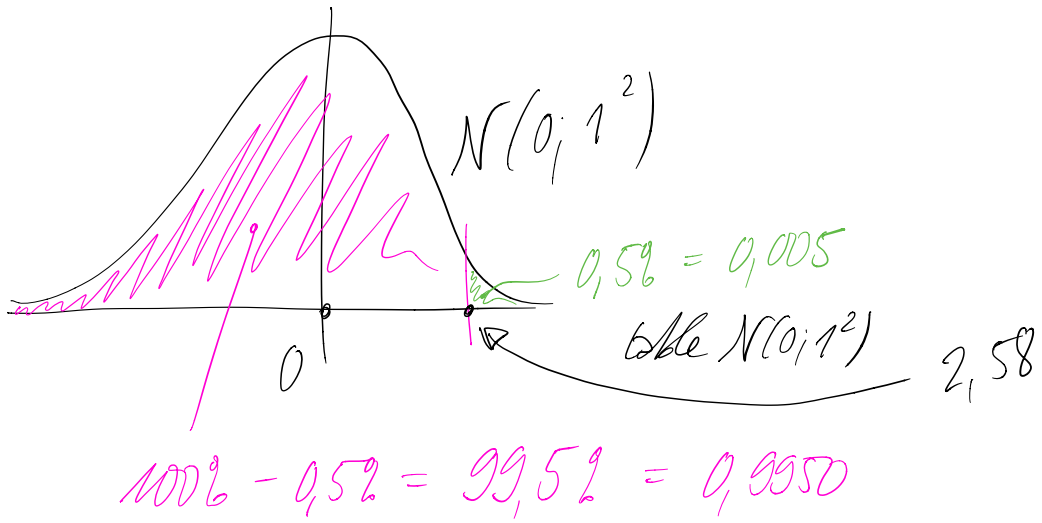

$$\Rightarrow C = 100 - 0,84 \cdot 10 = 100 - 8,4$$

$$= 91,6$$

$$\Rightarrow C = -6 + 1,64 \cdot 2 = -2,72$$

$$\Rightarrow C = 0 + 4 \cdot 2,58 = 10,32$$
